## Greenwich Council Divest from Israel Now

### Boycott Divestment Sanctions

Israel's genocidal assault on Gaza is now in its 11th month with over 41,000 Palestinians, mostly women and children, massacred by Israel with UK and US funded and supplied weapons. The Lancet estimated a total of 186,000 deaths, including thousands more dead under the rubble.

With the lack of aid, prevention of sanitation and access to clean water, disease including Polio and Hepatitis is now also an additional threat to Palestinians in Gaza.

Prosecutors at the International Criminal Court have issued arrest warrants for Netanyahu and other Israeli leaders. The International Court of Justice has ruled that Israel's occupation of the West Bank and Gaza is illegal and that countries must take action to ensure Israel ends its occupation and genocide.

The Royal Borough of Greenwich's pension scheme invests £43,286,292 in funds complicit in this genocide: [www.lgpsdivest.org/lgps-investments](http://www.lgpsdivest.org/lgps-investments)

This inadvertently makes those of us who live in Greenwich, work for, or get a pension from Greenwich council, a complicit contributor to Israel's genocide of Gaza and the oppression of the Palestinian people.

This must end! Greenwich must divest from Israel. We must stop supporting the genocide!

You can email your councillor, Google: greenwich councillors or if you work for the council or are a Greenwich pensioner email councillor Olu Babatola, Chair of Pension Fund Investment & Administration Panel [olu.babatola@royalgreenwich.gov.uk](mailto:olu.babatola@royalgreenwich.gov.uk)
